2016 ASM Indianapolis Scholarships

The Executive Committee of the American Society for Materials (ASM) Indianapolis Chapter announces the availability of two (2) scholarships of $1500.00 each. Indianapolis area high school seniors who are interested in science and engineering, especially materials science, are eligible to apply. The selection committee will consider a variety of factors including achievement, scholarship, motivation, potential, and community involvement.

To apply for the year 2016 scholarship program submit the following:

1. A short statement describing why you became interested in engineering and potential career plans. Include your name, high school, home address, phone number, and the college you intend to attend, your full name, signature, and date.
2. High school transcript including cumulative grade point average.
3. A 2-page, 12-pt font, paper on one of the 2 following topics:
   - High-temperature materials for aircraft engine applications
   - Materials for renewable and sustainable energy

You will be evaluated on your ability to research and narrow topic, then focus on what you feel are key issues. There is no right or wrong answer.

1. School club, sports, and employment experience, special honors and any other pertinent information that you wish to share with the selection committee can be submitted in a separate sheet.
2. Two letters of recommendations from your teachers, or other leader (i.e. scout or church leader), at least one must come from science or math teachers. Please have letters sent in envelope sealed and signed by individual submitting recommendation.

Application material should be submitted loose, not bound together in one envelope, and mailed to the address below. The envelope must be post marked by February 14, 2016. Finalists will be notified in early March and the scholarships will be awarded at our April meeting. Please note: all materials submitted will be shredded following the selection process.
